SIGLATURA

Per avere una visione immediata di come procede, nel minore, l'apprendimento è bene che questo venga evidenziato mediante dei simboli.

E' fondamentale, infatti, che l'educatore abbia presente, in ogni momento, quali schede o attività siano dal bambino conosciute, sconosciute o in via di acquisizione. Ciò per evitare di farlo confrontare con temi troppo complessi senza aver prima consolidato gli apprendimenti più semplici, o di far ripetere inutilmente schede e attività da lui perfettamente conosciute e quindi superate.

Si consiglia pertanto di siglare sia le singole schede che le attività globali indicate nell'indice sottostante indicando con:

- un puntino l'inizio dell'apprendimento;
- ✕ una crocetta, le schede o le attività in cui il bambino dà risposte esatte ma senza il commento verbale minimo richiesto, ad esempio il nome dell'oggetto;
- ⊗ un cerchio che circonda una crocetta, per indicare le schede o le attività in cui il bambino dà un commento verbale minimo.
- ⊠ un quadrato che include un cerchio ed una crocetta, per indicare le schede o le attività di cui il bambino ha completato l'apprendimento.

IL VOCABOLARIO

IL VOCABOLARIO

Nei bambini con insufficienza mentale, svantaggiati o nei bambini sordi, la comprensione delle parole è limitata ad un numero molto ridotto di queste.

E' invece fondamentale per una maggiore ricchezza culturale e per una conseguente maggiore comprensione del testo scritto, saper riconoscere molti oggetti, animali o vegetali e verbalizzare il loro nome.

L'album che presentiamo si prefigge questo scopo.

UTILIZZAZIONE

Per i sordi che incominciano a leggere.

1^a Fase.

Il bambino leggendo le brevi frasi in cui è presente il soggetto e l'articolo dovrà indovinare a quale immagine si riferisce.

2^a Fase.

Lasciando scoperta la parte inferiore della scheda e indicando le varie immagini si chiederà al bambino di dire il nome dell'oggetto.

3^a Fase.

Coprendo la parte inferiore della scheda il bambino dovrà verbalizzare il nome del soggetto.

4^a Fase.

Il bambino dovrà indicare, attraverso la lettura labiale, l'immagine alla quale si riferisce l'educatore.

Per i bambini con insufficienza mentale o svantaggio socio-culturale è più utile utilizzare un altro tipo di metodologia.

1^a Fase - Comprensione verbale.

L'educatore presenta le immagini della scheda dicendo il nome dell'oggetto e le sue caratteristiche.

2^a Fase - Comprensione verbale.

Il bambino dovrà indicare l'immagine corrispondente a quella richiesta dall'educatore.

3^a Fase - Espressione verbale.

L'educatore indicando ogni soggetto chiederà al bambino il suo nome.

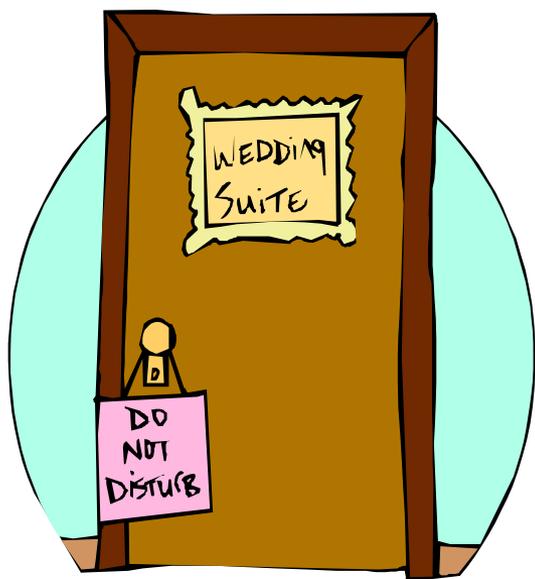

I bambini che sanno leggere e scrivere, potranno loro stessi collegare la frase all'immagine corrispondente e quindi, in un momento successivo, coprendo la parte inferiore della scheda, potranno scrivere il nome dell'oggetto rappresentato.

ASSOCIAZIONI DI IMMAGINI UGUALI O SIMILI

Associa le singole parole all'immagine corrispondente.

ASSOCIAZIONI DI IMMAGINI UGUALI

La possibilità di stimolazione logica fino ai tre anni, in pratica coincide per lo più con la possibilità dello sviluppo psicomotorio, percettivo e del linguaggio.

Il bambino, infatti, manifesta le sue capacità logiche attraverso un'attività rivolta soprattutto all'analisi, confronto e interpretazione della realtà sensoriale.

Nella sua esplorazione del mondo vengono ad essere coinvolti tutti i sensi per cui è importante una molteplicità di stimolazioni.

Maggiore attenzione noi diamo alla percezione uditiva e visiva, in quanto è più facile, per gli studiosi e per gli educatori in genere, preparare e somministrare materiale graduato e opportunamente variato composto da immagini, da suoni e parole, piuttosto che da gusti e da odori.

Le schede che qui presentiamo sono formate da immagini uguali o simili da riconoscere e da associare che hanno lo scopo di sviluppare nel bambino non solo la percezione visiva ma anche il linguaggio, i primi processi di astrazione e i fondamentali rapporti spaziali.

Il bambino viene inoltre arricchito da numerosi elementi culturali.

In tali schede sono presenti delle immagini nella parte alta da associare con quelle corrispondenti nella parte bassa.

UTILIZZAZIONE

Per un corretto uso di tali schede è opportuno seguire due fasi:

I fase

Inizialmente l'educatore dirà il nome dell'immagine di cui chiede l'associazione, ed è sufficiente in questa prima frase che il bambino risponda con un semplice gesto della mano.

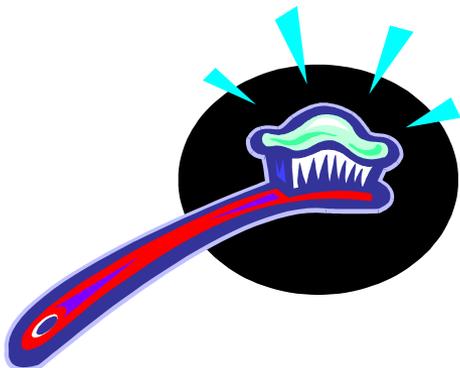

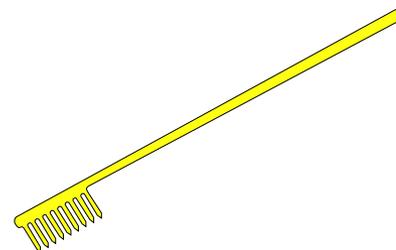

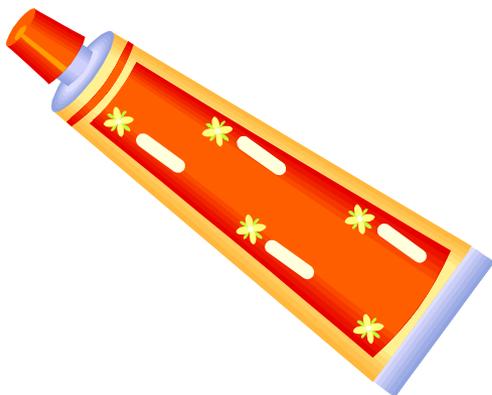

Nel caso di bambini molto piccoli o inibiti l'educatore potrà tenere con la sua la mano del bambino in modo tale da incoraggiarlo e avviarlo al gioco associativo.

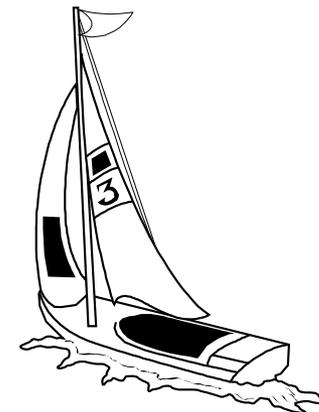

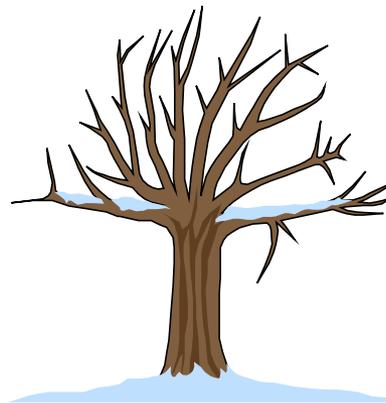

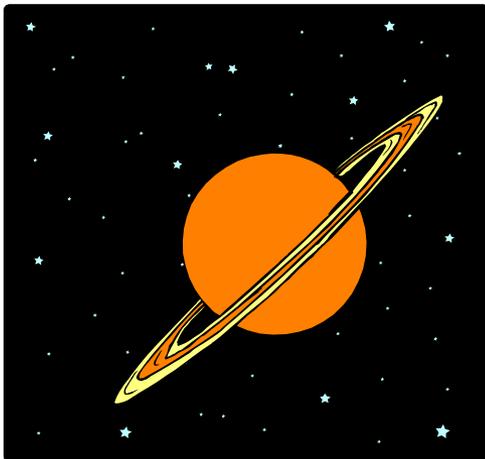

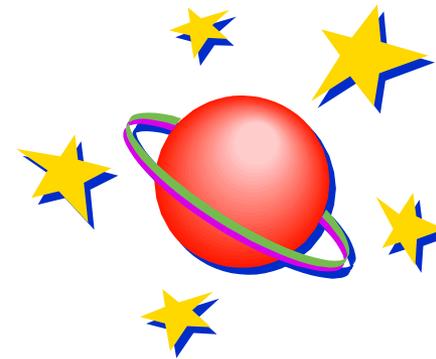

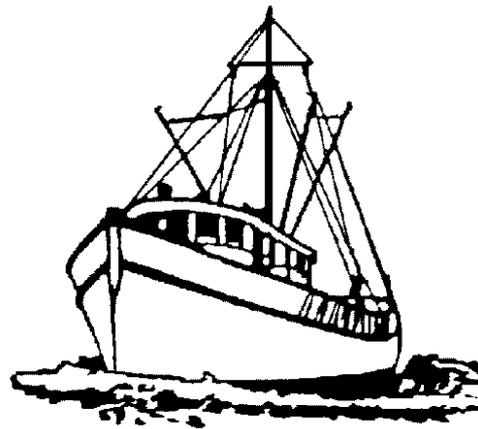

II fase

Gradualmente sarà il bambino stesso a verbalizzare il nome delle immagini più semplici mentre effettuerà l'associazione.

PROGRAMMA BASE PER LO SVILUPPO LOGICO E COGNITIVO

LINGUAGGIO: ASSOCIAZIONI VERBALI

LINGUAGGIO : ASSOCIAZIONI VERBALI

In queste schede sono presenti tre brevi frasi da collegare per il loro significato a tre immagini.

- Lo scopo è quello di stimolare la comprensione dei nomi e delle espressioni linguistiche presenti nella frase, ciò porterà, naturalmente, a una maggiore ricchezza del vocabolario del bambino.
- Nel momento in cui vengono richieste l'uso, la funzione, il significato o le caratteristiche dell'immagine presentata, abbiamo la possibilità di aiutare il bambino a sviluppare sia gli elementi culturali che il linguaggio espressivo.

UTILIZZAZIONE

Primo fase

Per stimolare la comprensione verbale si leggerà la prima frase ed il bambino dovrà indicare l'immagine a cui si riferisce, lo stesso si farà con le successive.

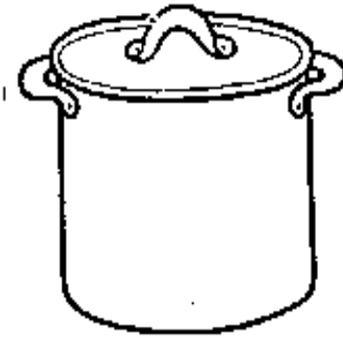

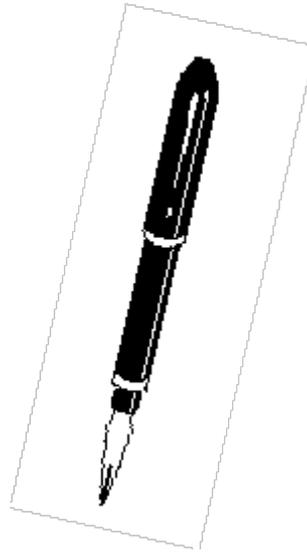

Seconda fase

In un secondo tempo per stimolare l'espressione verbale facendo osservare l'immagine disegnata e rispettando il contenuto delle frasi scritte, si chiederà l'uso, la funzione, o qualche caratteristica dell'oggetto rappresentato.

Naturalmente per i bambini che sanno leggere si copriranno le frasi scritte per evitare che possano decifrare le risposte.

ETÀ DI RIFERIMENTO
