PROGRAMMA BASE DI STIMOLAZIONE LOGICO – COGNITIVA PER LA TERZA ETÀ

ASSOCIAZIONI LOGICHE
3L

ASSOCIAZIONI LOGICHE

L'attività di associare un oggetto, un animale, un vegetale o una forma geometrica ad un altro, ricercando un possibile legame logico di uso, funzione, forma, posizione nello spazio, somiglianza, causa - effetto, parte - tutto ecc. implica la stimolazione di processi di astrazione, classificazione ed organizzazione spaziale, basilari per la stimolazione logico - cognitiva.

Le schede che qui presentiamo hanno lo scopo di stimolare nell'anziano non solo la percezione visiva ma anche il linguaggio, i processi logici di astrazione e i fondamentali rapporti spaziali.

In tali schede sono presenti delle immagini, nella parte alta, da associare con quelle corrispondenti nella parte inferiore.

Queste schede, preparate appositamente per l'anziano, sono doppie. Nella prima, (scheda A) sotto l'immagine, è presente il nome dell'oggetto. Questa scheda è stata chiamata ***scheda con aiuto verbale***. Nella seconda (scheda B) vengono riproposte le stesse immagine senza il nome, s***cheda senza aiuto verbale***. Giacché le capacità di lettura vengono conservate anche in uno stadio abbastanza avanzato di demenza, l'anziano potrà utilizzare questo strumento per ricordare il nome dell'oggetto. Nella scheda senza aiuto verbale invece, sarà costretto ad utilizzare solo la sua memoria.

Gruppo di schede: ogni gruppo è formato da cinque schede doppie, in totale quindi dieci schede.

UTILIZZAZIONE

PRIMA SEDUTA

I fase

Nella prima seduta si utilizzerà solo un gruppo di schede, cinque schede doppie.

Inizialmente l'anziano leggerà a voce alta, il nome che si riferisce all'immagine di cui si chiede l'associazione e, dopo aver trovato in basso la figura corrispondente, ripeterà lo stesso nome. Nel caso in cui l'anziano non sappia leggere, sarà l'educatore stesso che leggerà il nome.

Subito dopo sarà invitato a ripetere l'associazione ed i nomi nella seconda scheda ***senza aiuto verbale***.

Nel caso di anziani molto decaduti o poco collaborativi l'educatore, nelle prime schede, potrà incoraggiarlo e avviarlo all'attività associativa con un aiuto manuale.

II fase

Successivamente, il primo gruppo di schede sarà ripetuto almeno tre volte, utilizzando soltanto le ***schede senza aiuto verbale***.

SECONDA SEDUTA

Nella seconda seduta l'anziano ripeterà l'attività proposta e si procederà come nella prima, tranne che le ***schede da ripetere senza l'aiuto verbale*** saranno non più cinque ma dieci schede (***due gruppi***).

TERZA SEDUTA

nella terza seduta si procederà come nella seconda, ma le schede da ripetere senza l'aiuto verbale saranno quindici (***tre gruppi di schede).***

SEDUTE SUCCESSIVE

Ogni seduta successiva si aggiungerà un gruppo fino alla sesta seduta. In questa, si aggiungerà il sesto gruppo di schede e si tralascerà il primo.

E così per le sedute successive si aggiungerà un gruppo e se ne tralascerà un altro.
